

The Report was filed on February 19, 2009, and recommends that the decision of the Commissioner be reversed and the case remanded to the Commissioner for further proceedings. Specifically, the Report recommends that the case be remanded to consider all of Plaintiff's impairments (including obesity and neuropathy and/or radiculopathy), determine her RFC in light of all of the evidence, properly evaluate her credibility, consider the opinion of Plaintiff's treating neurologist (Dr. Smith) in light of all of the evidence, and continue the sequential evaluation process if necessary. No objections have been filed.<sup>1</sup>

After reviewing the record, the applicable law, and the findings and recommendations of the Magistrate Judge, the court finds no clear error. Accordingly, the Report and Recommendation is adopted and incorporated by reference. For the reasons set out therein, the final decision of the Commissioner is **reversed and the case is remanded** to the Commissioner pursuant to Sentence Four of 42 U.S.C. §§ 405(g) for further action consistent with the directions in the Report and Recommendation as here incorporated.

**IT IS SO ORDERED.**
